(VOLUNTEERS)**

Introduction.

KIFAD, as a non-government organization, provides many services, especially within their community, like: HIV testing and counseling, trainings and dialogues on different issues and psychosocial support, mainly to improve the health, social and economic situation within our community. This festival season, KIFAD received a donation of clothes from KIFAD UK. KIFAD staff tried to figure out some critically vulnerable households which are in need of special support and they distributed the donated items to such families.

Target.

KIFAD targeted OVC beneficiaries from 0-10 years who are having insufficient clothing such that it gives pleasures during the festival season. Two days were arranged to distribute the items to the noticed families in different operating areas.

Achievements.

KIFAD was able to distribute clothes which were sent by KIFAD UK to families in the project area according to the size and age of the children and the distribution was door to door and it was done in 30 families like: c-kif-265, c-kif-261, c-kif-122, c-kif-124, c-kif-111, c-kif-206, c-kif-190, c-kif-064, c-kif-105, c-kif-070, c-kif-238, c-kif-192, c-kif-246, c-kif-226, c-kif-137 and c-kif-008.

They appreciated what was given to them.

The daughter in c-kif-018 receiving clothes for her newborn baby : **“Thank you so much KIFAD, my baby will be smart when she wears these clothes, everyone will like to hold her”**, and the grandson in c-kif-261 was given new clothes and the caregiver requested God to keep KIFAD for long time.

In nabatanzi Saudas family (c-kif-190), had two children and one grandchild who were given clothes and they appreciated KIFAD for the great job done in their community besides the clothing she appreciated other activities provided to them.

“Mother, we are going to be smart when we are moving everywhere” those were the words of the children. The mother thanked KIFAD so much for giving clothes to her children because they were not enough for them.

In Kiwazzi another household members called mbabazi angellahs family (c-kif-111) had three grandchildren who were given clothes and the caregiver was grateful for what KIFAD did in this festival season. She said:”my grand children got clothes which they will wear on Christmas and they will be smart on that day oh thank you lord”

Mbabazi with her family well dressed in the clothes given to her and nakazibwe aisha and family

Nabaggala specionza with her family. Nabaggala appreciated everything, most especially for enrolling her in VSLA group and she said: “Thank you very much madam Hadijah and I would like to thank our donors too.”

Suda received clothes with happiness.

Challenges.

It was realized that some households that did not receive clothes were not in good terms with their neighbours that they were complaining why they did not receive yet they were in the same group even though we explained to them that these were identified OVC households on the programme.

Conclusion.

It was a nice exercise that each house hold appreciated clothes that was given to them and requested the donors to reward them abundantly..
