

**KIYITA FAMILY ALLIANCE FOR DEVELOPMENT  
(KIFAD)**

**Clothes Distribution Report**

**submitted to**

**KIFAD UK**

**January 2016**

## **Introduction:**

Clothes are a basic human need, for protection and other aspect important for proper human growth. Children need clothes to attend school and adults need them to dress for work. But there are many people and most importantly the children in our community who don't have this essential need of existence.

Psychosocial support and Basic care being one of the thematic areas KIFAD is looking at, KIFAD UK also contributes to it through supporting orphans and vulnerable children with clothes, toys, emergency food aid etc. KIFAD UK has continuously provided that kind of support to vulnerable families in Wakiso District which is passed over to the families through KIFAD Uganda.

## **Activity**

Similarly in December 2015 KIFAD UK supported vulnerable households with toys, shoes and clothes for children between 0 to 2 years. The distribution of clothes was done at KIFAD offices Bulabakulu Mende Sub- county Wakiso Dis, trict. Vulnerable household members and their children were invited to recieve the clothes, toys or shoes for their children. Twenty five (25) households benefited from clothes with a total of 30 children

**Figure 1** Nayiga Gorret from Banda receiving clothes for her daughter.

## **Achievements**

Parents and care givers were very grateful and happy for receiving clothes, toys and shoes that were good at no cost. They thanked KIFAD friends for the continued support.

Aboth Ruth was able to speak on behalf of the other parents and care givers, in her words she said “We are grateful for what KIFAD is doing for us, we are able to get clothes that our children don’t have, we can test for HIV at no cost and because of that all my family members were tested, I was able to participate in a free eye clinic as well.”

**Figure 2: Aboth Ruth receiving Clothes for her child**  
**Figure 3 Aboth's child after putting on the clothes**

**Figure 4: A mother with twins (Namusisi Judith) also receive clothes for the twins**

**Beneficiaries Stories: In their own word.**

**Nakawungu Rose, a mother of four children,**

I am very happy to see the happiness of the children while receiving the clothes and toys and also KIFAD support reached the children to bring joy in their faces, and also it's a good experience to me to see my children's happiness and joy on their faces.

**Nayiga Gorret, a mother,**

I am glad to see every child smile and joy as colorful as toys given by KIFAD. A number of children got clothes and toys and they were very happy. Some of them started wearing the clothes immediately. KIFAD made children faces smile at a same time.

**Aboth Ruth, a mother of two children**

"Am very happy to receive clothes and toys for my children, my husband doesn't support them so if KIFAD and its friends come out to support them I feel not left alone. I have benefitted a lot from KIFAD since I joined it, my family was able to get free healthcare that has brought a smile in my home. With the support I get from KIFAD am sure I will not remain the same."

**Namusisi Judith, a twin mother,**

“Am so grateful for receiving such good clothes for my twins, this is not my first time to receive such support from KIFAD and the support I get keeps me moving. I have never regretted being part of KIFAD because in all aspects I get supported. Recently I participated in a free eye clinic and all my family members were tested for HIV.”

Finally, we wish to thank KIFAD UK for standing with us all this long! **Each one of you who provides care and support to vulnerable children households are so much appreciated for the generously donated items to the project which have made an impact to the lives of the children.** We see this project as one part of the puzzle towards bringing about **holistic development to the communities.** The vulnerable children households and local leaders in the communities that we work with are continuously very much appreciative of the timely support to the families. Their message to you is to continue to remember these dear people, especially the children as they are the most vulnerable to be affected.

KIFAD clients, and staff are grateful for the continued support from KIFAD UK and KIFAD is determined to continue supporting the vulnerable households. The support from friends makes a big difference in the lives of the people we are supporting.

Thanks again!
